## Welcome to Pioneer Settlement Swan Hill, Australia's first open air museum.

**T**oday you'll explore the history of the Murray Mallee region and what makes our part of the world so remarkable. A tough, dry and vast region of Australia brought to life by the mighty Murray River.

See, touch and hear as you explore the grounds, wind your way around the settlement and use this map as a guide. It will help you plan a memorable and enjoyable visit. And travel the river of a bygone era on the **Pyap** which meanders daily on the Murray for a one hour cruise.

Why not start with our complimentary horse and carriage ride, it will give you a great view of our site before you start exploring.

At the end of your old fashioned adventure be sure to book in for our award winning laser light spectacular '**Heartbeat of the Murray**' which runs nightly at sunset.

Share your Pioneer Settlement experience with us on Facebook & Instagram: **#pioneersettlement**

or review us on **TripAdvisor**

### Top 5 'Must See & Do' activities

- A complimentary ride on the horse and carriage. Find out which of our heavy horses is harnessed for work today. **17**
- Travel to the top of the PS Gem paddle steamer and give her wheel a spin. **8**
- Capture a vintage memory in our Photographic Parlour. **16**
- Visit the past in 3D at the Mechanics Institute to see our Kaiser Stereoscopic theatre, one of the last remaining in the world. **20**
- Inspect our large collection of steel wheel tractors. **39**

### Feeling hungry?

Enjoy a visit to the **Paragon Café** run entirely by our wonderful volunteers. You'll be spoilt with good old fashioned country cooking. Be sure to try the classic scones and for the kids we highly recommend an old fashioned spider.

### PS Explorer: A guided tour in your pocket

Download our free iPhone app and enjoy your own guided tour of the Pioneer Settlement. Enjoy the stories and tales of yesteryear as short videos explain the buildings you are standing in and objects which have a fascinating history. **Black Bess** is a must view as you will no doubt be surprised by how it operated.
